

Improve *sustainability* today with renewable HVO fuel

Everyone is concerned about climate change—
We are at a turning point

[**56%** OF PEOPLE GLOBALLY THINK ABOUT CLIMATE CHANGE DAILY OR WEEKLY.¹

**BUT WHEN IT COMES TO MISSION-CRITICAL POWER,
WE HAVE THE TECHNOLOGY IN THE FORM OF
NEW FUELS TO MAKE A DIFFERENCE TODAY**

HVO is a sustainable alternative to diesel that is available right now

- Simple and efficient
- Up to 90% carbon reduction²
- Genuinely renewable energy
- Can be flexibly blended with diesel
- Suitable for extended storage

**APPROVED FOR HVO
RENEWABLE FUEL**

**A new fuel from the
waste stream**

**With major refineries in
the U.S. and Europe**

**Meets regulations, improves
sustainability, simple, risk-free**

**Just one way Rehiko is engineering simple
and efficient alternatives to help customers
decarbonize their operations and achieve
their greenhouse gas reduction targets.**
